PROJECTS

Social Media App

2024 Egypt
Description

- Developed a feature-rich social media platform enabling user registration, post creation, and interaction (likes, comments) using HTML, CSS, JavaScript, and APIs. And other libraries and frameworks

Product Management System

2023 Egypt
Description

- This project is a simple system for managing products that allows users to add, edit, delete, and search for products based on title or category.

Easybank Landing Page

2024 Egypt
Description

- This project is an Easybank landing page created using HTML, CSS, and JavaScript. The project features a responsive design that adapts to different screen sizes and devices.

EXPERIENCE

Full Stack Developer

Freelancing

2023 - Present Home
From Home

- I work as a Full Stack Developer remotely from home. My main focus is building and optimizing web applications using a combination of frontend and backend technologies. On the frontend, I specialize in React.js, HTML, CSS, and sometimes Redux for state management, creating responsive, interactive, and visually appealing user interfaces. On the backend, I utilize Node.js, Express.js, and MongoDB to develop server-side logic, design and optimize databases, and create APIs that interact seamlessly with frontend components.
